

## ***Exceeding expectation for luxury and performance***

With exceptional performance on every level, the FX Cruiser SHO sets the benchmark for luxury watercraft.

Next-generation supercharged engine power, advanced electronic control systems and lightweight NanoXcel® hull technology all combine to create an exclusive machine that excites the imagination, opening up a new world of possibilities for adventure and fun.

With the design and engineering of the FX SHO, the Cruiser SHO raises the bar further, offering class leading comfort and contemporary luxury. With contoured seating, adjustable handlebars, a multifunction instrument panel and pull-up mooring cleats, long-distance rides are reduced to an effortless pleasure.

- Supercharged 1812cc, 4-cylinder, 4-stroke, DOHC
- Ultra lightweight NanoXcel® hull and deck
- Electronic Throttle Control
- Luxury, ergonomic Cruiser® seat
- Remote Security and low-RPM mode
- Multifunction instrument panel
- Quick-Shift Trim System (Q.S.T.S.)®
- Glovebox and water-resistant storage facilities
- Seats up to three riders
- Convex dual mirrors
- Pull-up cleats
- Automatic bilge system

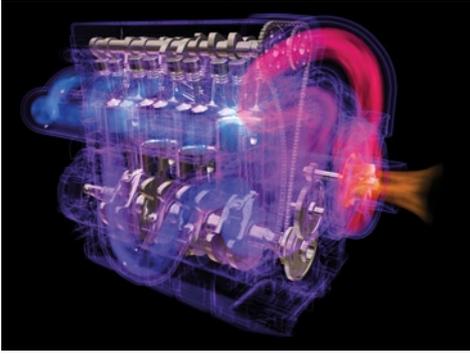

## ***Technology the world trusts***

A world-leading reputation has to be earned. First introduced by Yamaha in 1986, today's WaveRunners are renowned for their agility and performance in the water. Benefiting from Yamaha's expertise in the development of efficient 4-stroke engine technology, no other watercraft comes close to a WaveRunner.

From highly advanced NanoXcel® hull technology to the supercharged, intercooled 4-stroke 1812cc engine design, Yamaha engineering embodies innovation and advancement.

And finishing touches add modern luxury to the package. The end result is a blend of performance, agility and comfort on the water.

## 1.8L engine block with supercharger

The 1.8 litre supercharged engine is environmentally designed to offer the perfect balance of performance, fuel efficiency and reliability. And, although offering the largest displacement in the industry, the engine remains compact and lightweight, benefiting from Yamaha's engineering expertise.

## Lightweight NanoXcel® hull and deck

With a hull and deck constructed from ultra lightweight NanoXcel®, the FX Cruiser SHO is extremely agile in the water as well as incredibly fuel efficient. NanoXcel® technology creates an incredibly strong intermolecular bond, for a smoother surface compared to conventional manufacturing methods. It's also 25% lighter.

## Electronic Throttle

Yamaha's Electronic Throttle Control enhances your ride with several intelligent features. Cruise-Assist lets you set and maintain a specific speed while holding the throttle comfortably. No Wake Mode allows for effortless navigation through controlled areas. Reverse Traction Control lets you manoeuvre smoothly by preventing over-revving when in reverse.

## Best seat on the water

Designed for discerning riders, an ergonomically contoured and textured Cruiser® seat offers you and your passengers maximum comfort and support over long distances, whatever the speed or conditions.

## Adjustable tilt steering

The 4-position tilt-adjustable steering is simple to operate and allows the angle of the handlebars to be set to match your riding style or personal preference.

## Multifunction instrument panel

The FX Cruiser SHO has a unique, distinctively stylish instrument panel. Featuring a large analogue speedometer/tacho display it also provides clear and accurate readouts for fuel level, air and water temperature, compass heading, battery voltage and running hours. Automatic low fuel, low oil pressure and overheating alerts keep you informed.

| Engine             |                                     |
|--------------------|-------------------------------------|
| Engine type        | 4-cylinder, 4-stroke, DOHC, 4-valve |
| Supercharger       | Yes (with intercooler)              |
| Displacement       | 1,812cc                             |
| Bore x stroke      | 86 mm x 78 mm                       |
| Compression ratio  | 8.6 : 1                             |
| Cooling system     | Water-cooled                        |
| Pump Type          | 155 mm Axial Flow                   |
| Fuel               | Unleaded Regular Gasoline           |
| Fuel supply system | Electronic Fuel Injection           |
| Fuel capacity      | 70 litres                           |
| Lubrication system | Wet sump                            |

### The Yamaha Chain of Quality

Yamaha technicians are fully trained and equipped to offer the best service and advice for your Yamaha product. For this reason, Yamaha strongly recommends visiting an official Yamaha dealer for all your service requirements. Yamaha Marine Parts & Accessories are especially developed, designed and tested for our Yamaha product range. Yamaha also recommends the use of Yamalube®. Yamalube® is our own range of high-tech lubricants, the lifeblood of Yamaha engines. They are developed to carry on working effectively, no matter where you drive.

Besides functional and style accessories, Yamaha offers a range of high quality, innovative boating gear. An extensive range of casual wear is also available. For more information go to:

[www.yamaha-motor-acc.com](http://www.yamaha-motor-acc.com)

All information in this brochure is given for general guidance only and is subject to change without prior notice. We should all exercise POWER WITH RESPONSIBILITY and help preserve the great sporting opportunities and enjoyment we all derive from our involvement with personal watercraft. You must recognise too, that your Yamaha WaveRunner is actually a boat, so please learn and follow all the rules of the sea and waterways, take professional instruction where possible, and obey local rules and regulations, which may differ greatly from area to area. The photographs featured show boats being driven by professionals and no recommendation or guidance in respect of safe operation or style of use is intended or implied by the publication of any of these images. Read all instruction materials carefully before setting out and ALWAYS wear recommended protective clothing and a life preserver or lifejacket when boating. NEVER DRINK AND RIDE.
