

Versatile sports riding

The three-seat FZS is a perfect blend for all kinds of watersport fans: designed for high performance solo riding, it also cuts it as a fast cruising watercraft.

With an advanced NanoXcel® hull – the lightest in its class – combined with the extraordinary power of a large displacement, 1.8 litre supercharged engine, thrilling acceleration and high-speed performance come as standard. A rounded keel and new bow shape transform cornering and handling performance as well as providing added comfort.

And clever telescopic steering allows you to carve hard in the classic lean-forward position, or make a quick adjustment in choppy water and ride standing up.

- Supercharged, 1812cc, 4-stroke, 4-cylinder, DOHC
- Race-inspired hull
- Quick-Shift Trim System (Q.S.T.S.)®
- Unique telescopic steering
- Optimally designed jet pump
- Race-style cockpit
- Remote security and low-RPM mode
- Yamaha Engine Management System (Y.E.M.S.)®
- Seating space for three people
- Glovebox, dual cup holders and watertight storage
- Convex dual mirrors
- Re-boarding step

Technology the world trusts

A world-leading reputation has to be earned. First introduced by Yamaha in 1986, today's WaveRunners are renowned for their agility and performance in the water. Benefiting from Yamaha's expertise in the development of efficient 4-stroke engine technology, no other watercraft comes close to a WaveRunner.

From highly advanced NanoXcel® hull technology to the supercharged, intercooled 4-stroke 1812cc engine design, Yamaha engineering embodies innovation and advancement.

The FZS adds true versatility to the package – an engine that can deliver the thrills of sports riding as well as the little luxuries and comforts that makes cruising a real joy.

Supercharged 1812cc 4-stroke 4-cylinder DOHC engine

A supercharged, intercooled, 4-stroke 1812cc engine provides all the power you need. With a large 1.8 litre displacement, high capacity intake duct and specially designed impeller, the FZS delivers eye-popping acceleration and superb high-speed performance – whatever your style of riding.

Race-inspired hull

A specially designed, lightweight NanoXcel® hull delivers optimum performance in changeable water conditions. The round keel offers nimble turning performance, all the while reducing rider load. The bow is perfectly formed to provide natural handling, added agility, and incredible predictability: riders are connected to the water like never before.

Optimally designed jet pump

The FZ Hyper-Flow jet pump propulsion system features a three-blade stainless steel impeller that is designed to maximise water flow. The pump configuration provides excellent hook-up and smooth acceleration, instantly converting raw power into usable propulsion.

Unique telescopic steering

Water conditions can quickly change: the FZS has a telescopic steering column that lets you adjust your riding stance accordingly. Adopt the classic, attack-minded forward-leaning position; or stand up for extra ride comfort in choppy waters. Switching between the two positions is easy and quick.

Large glovebox with dual cup holders

With a large glovebox, essential items are always readily available even while you're riding. Dual cup holders ensure that refreshment is always close to hand for both you and a passenger.

Race-style cockpit

Revealing the racing spirit and true character of the FZS, two large, red-accented analogue meters provide a clear view of the watercraft's speed and RPM in a single glance: riders can really see the craft respond to the slightest touch of the throttle.

Engine	
Engine type	4-cylinder, 4-stroke, DOHC, 4-valve
Supercharger	Yes (with intercooler)
Displacement	1812cc
Bore x stroke	86 mm x 78 mm
Compression ratio	8,6 : 1
Cooling system	Water-cooled
Pump Type	155 mm Axial Flow
Fuel	Unleaded Regular Gasoline
Fuel supply system	Electronic Fuel Injection
Fuel capacity	70 litres
Lubrication system	Wet sump
Oil capacity	4.3 litres
Dimensions	
Length	3.37 m
Width	1.23 m
Height	1.16 m
Dry weight	369 kg
Features	
Storage Capacity	80.6 litres
Rider capacity	1-3 person

The Yamaha Chain of Quality

Yamaha technicians are fully trained and equipped to offer the best service and advice for your Yamaha product. For this reason, Yamaha strongly recommends visiting an official Yamaha dealer for all your service requirements. Yamaha Marine Parts & Accessories are especially developed, designed and tested for our Yamaha product range. Yamaha also recommends the use of Yamalube®. Yamalube® is our own range of high-tech lubricants, the lifeblood of Yamaha engines. They are developed to carry on working effectively, no matter where you drive.

Besides functional and style accessories, Yamaha offers a range of high quality, innovative boating gear. An extensive range of casual wear is also available. For more information go to:

All information in this brochure is given for general guidance only and is subject to change without prior notice. We should all exercise POWER WITH RESPONSIBILITY and help preserve the great sporting opportunities and enjoyment we all derive from our involvement with personal watercraft. You must recognise too, that your Yamaha WaveRunner is actually a boat, so please learn and follow all the rules of the sea and waterways, take professional instruction where possible, and obey local rules and regulations, which may differ greatly from area to area. The photographs featured show boats being driven by professionals and no recommendation or guidance in respect of safe operation or style of use is intended or implied by the publication of any of these images. Read all instruction materials carefully before setting out and ALWAYS wear recommended protective clothing and a life preserver or lifejacket when boating. NEVER DRINK AND RIDE.
