

Propellers

Stainless steel

Polished stainless steel 3 blade propeller

- Stainless Steel propellers provide higher levels of performance especially for High Hp Outboards.
- Offers higher resistance to blade flexing and cavitation compared to other materials.
- Suited to higher performance craft and commercial applications.

Propellers

Stainless steel

Stainless Steel 4 blade propeller

- In addition to 3 Blade stainless steel propellers, 4 Blade types provide improved acceleration, powerful thrust, increased speed and fuel economy in the motors mid range with smoother running and excellent cruising performance.
- Suited to waterski-ing, wakeboarding or rough water conditions.
